- OPTIMIZATION
- ORDER MANAGEMENT
- POOL CONTROL & MONITORING
- TRANSPORT MANAGEMENT

PIONEERING CONTAINER MANAGEMENT SOFTWARE

NEVER MORE CONTAINERS OUT OF CONTROL

If you wonder where your bins are and when they will be available again, our Container Management Software will provide the right answer. Your company will act and react more quickly than ever. Control your empties – don't let your empties control you anymore!

The software can be customized to your structures and processes in order to integrate all your logistics partners quickly and easily. You can access the software by browser or mobile applications. All user groups will find an intuitive and user-friendly graphical interface in multiple languages.

A SHINING PERFORMANCE FOR CONTAINERS

A CLEAN SWEEP

No matter what your containers are contaminated with – we will clean it all up. Our intensive cleaning offer removes even the most stubborn residues and makes your containers shine. Our state-of-the-art cleaning facilities make it possible to adjust cleaning quality precisely to your needs. Short cleaning times are particularly important to us, in order to return your container inventories to you as quickly as possible.

OUT OF THE BOX

SYSTEMATIC RETURNABLE LOGISTICS

No matter your requirements for return logistics – comeback is ready to face them. We can do even more: Our solutions perform better than those of most other providers, while being easy to use. There are many providers with standard offers. We are your partner to master unique requirements for load carrier management.
